New RICHMOND ROUTES

The trail head would be four blocks east on County Road GG off Highway 65 on the south end of the city. Paperjack Park, with rest rooms, is located on the SW comer of GG and Billmar Ave. Following the trail east leads you into the system at the junction of GG and 1400h St.

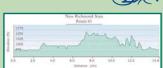

Consider a longer ride to see the Village of Deer Park at the halfway point of this route. You will encounter rolling hills and gorgeous vistas, as well as the bustling town of Star Prairie, where you can observe its historic trout farm.

The next route is for the adventurous who are interested in exploring the northeastern reaches of St. Croix County. Set aside three to four hours and enjoy the ride.

For the ambitious at heart, take the 64 – mile loop where you will see the scenic Apple River and Willow River. With all there is to see, the miles will fly past but if your legs tire there are numerous shortcuts available.

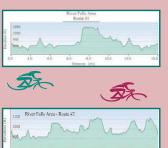

RIVER FALLS ROUTES

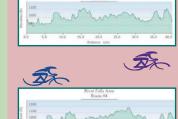

Begin these routes at Hoffman Park, off Division St. and Hansen Drive (just off of Highway 35), where restrooms and water are available. Head West through the City of River Falls into the prime countyside of Mann Valley.

Adding a few more miles to the shortest route will loop you back across Hwy 35 to rolling dairy land with moderate topography and wonderful scenic views.

For the folks who like a nice 40-mile ride, this next route provides great scenic views with moderate rolling hills, just enough to make it a challenge.

The long route will lead you on a nice ride to the northeast. If you take a short break, Hammond has several nice eating establishments with avail able refreshments. On this route there is no need to put down the hammer, mellow out and take your time. Pedal on, my friend.

HUDSON ROUTES

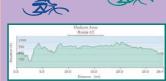

Grandview Park, near the corner of Carmichael Rd. and Vine Ave., makes an ideal starting point to see the rolling hills around Hudson. Just a short ride brings you to Trout Brook Road, a twisty Wisconsin Rustic Road. Definitely destination-worthy!

Adding a few additional miles to the ride will showcase six different lakes, a rustic road, and a few challenging hills. Well worth the work!

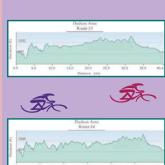

Ride the rolling roads out to the country. See vibrant Bass Lake and then stop at picturesque Homestead Parklands on Perch Lake on the way back. Top it off with a tranquil rural road. A nice little jaunt!

Take the 62-mile route and enjoy the country side and scenic vistas. This route is flat to rolling with a few quick steep hills - just enough to make it memorable.

BALDWIN ROUTES

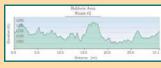

The Baldwin routes encompass four looping rides ranging from 12.5 miles to 53.3 miles in distance. All routes begin at Mill Pond Park, just east of 6th St. on Maple St., where adequate parking, restrooms and water are available. The choice of routes will greatly depend upon the cyclist's ability as the topography becomes more challenging as the routes progress eastward. Refreshments are available in Baldwin, Woodville and Wilson. Sit back on the saddle, there's no need to hurry while riding through the scenic views of dairy land. Enjoy the ride!

GLENWOOD CITY ROUTES

Glenwood City, St. Croix County's easternmost city, provides the cyclist with four challenging alternatives, ranging from 13.5 miles to 47.9 miles. All routes originate at the St. Croix County Fairgrounds and will challenge riders with some dramatic elevation changes. It's not called 'The City of Hills' for nothing – but don't let that scare you, the views are well worth it. Make sure to stop at Glen Hills County Park to enjoy one of the most beautiful county parks in the State.
